Project Description

Bodens Energi AB expanded its existing plant in Boden with a new waste-fired CHP line (P18) with a thermal capacity of 35 MW. The P18 line was integrated into the existing plant and housed in a new, separate building. Lindner insulated the boiler, ducts and piping over an area of 5,900 square metres.

General

Building Type	Power Plants, Industrial and commercial construction
Company Division	Lindner Bautechnik GmbH
Completition	2018
Client	Bodens Energie AB

Completed Works

- Insulation Engineering 5900 sqm
