Project Description

Tattersall Lorenz manages more than 4,000,000 m² of rental space in around 450 properties – no wonder that the property management company itself attaches great importance to attractive rental space: The office worlds fitted-out by Lindner are therefore the perfect home for the company.

In the course of the tenant fit-out, Lindner was responsible for the complete fit-out and installed the FLOOR and more® floor system with floor coverings. To elegantly separate the offices, the tenants opted for flexible glass partition walls in combination with matching interior doors, some of which were also designed as fire doors. Various dry lining, painting and tiling works complete the service package. A special highlight is the custom-built kitchenette for the employees.
