Project Description

The Intercantonal Police School Hitzkirch in Hitzkirch is a renowned training site for the police corps of Central and Northwestern Switzerland. The school's seminar centre offers modern infrastructure with training and conference rooms, restaurants, sports facilities, and a hotel. During a comprehensive refurbishment, the intercantonal police school hitzkirch and the seminar centre's premises were modernised to ensure the continued training and education of police forces and external participants.

The Lindner Group, with its Swiss branch in Opfikon, contributed significantly to this project with various wall systems, including matching doors and frames. Glass partitions meet the highest standards of sound insulation, fire protection, and burglary resistance, while also providing a modern appearance with optimal light entry. The Lindner Life Stereo was directly integrated into the wall recess with slim, two-coloured connection profiles. For spatial separation, metal partitions of the Lindner Logic 100 Metal were used, featuring a magnetic whiteboard surface on the room side. Single-leaf wooden doors complement the wall systems in the seminar centre.

General

Building Type	Teaching, Class and Educational Rooms, Schools, Public and institutional buildings
Company Division	Lindner SE Arnstorf | Branch Opfikon
Completition	2023
Client	Interkantonale Polizeischule Hitzkirch

Completed Works
