

## WOODline

### Parquet on raised floors

The upper real wood layer made of high-quality wood panels is available in different designs and species of wood. The surface of the real wood parquet layer is coated with either lacquer or oil. The core panel consists of a raised floor panel type LIGNA made of wood or type NORTEC made of calcium sulphate, both equipped with a steel sheet on bottom side. The edge trim matches in colour to the species of wood and is applied up to the surface in order to protect the panel edge.

This product data sheet is only valid in conjunction with the product data sheet of the respective raised floor panel!

- Parquet layers from our own production with highest quality
- Panel edge with protection against humidity
- Certification according to FSC™ possible
- Combination possibilities with our panel parquet
- Combination possibilities with our industrial design planks
- Real wood layer

#### Technical details

Thickness		approx. 4 mm
Length		600 mm
Width		600 mm
Formaldehyde	EN 16516	E1

#### Surface coating

##### Surface coating lacquered

Structure		lacquered colourless (7-layer UV curing lacquer)
Gloss level		mat
Slip resistance	DIN 51130	R10
Durability	IHD profile of requirements	Class 6
Emission-tested	EUROFINS	Indoor Air Comfort Gold, M1
Fire behaviour	DIN EN 13501-1	Cl-s1 (with calciumsulfat panel, oak layer, UV lacquered)

## Surface coating oiled

Structure		two times hard wax oiled
Gloss level		matt
Slip resistance	DIN 51130	R9
Care instruction		ready oiled surface, care treatment not necessarily required
Surface agent emission tested	Requirements for constructional arrangements regarding the health protection law (ABG)	fulfilled
Behaviour at chemical exposure	DIN 68861-1:2011 DIN EN 12720:2014	stress class 1C
Determination of the behaviour upon wet heat	DIN 68861-8 DIN EN 12721:2014	stress class 8B
Saliva and sweat genuineness	DIN 53160	„saliva-and sweat genuineness“

## Standard program types of wood

Types of wood		oak, smoked oak, bamboo, steamed bamboo, walnut further types of wood on request
Wood grading		We use a wood grading with typical structure and play of colours, partly containing small sound knots

## Standard program design

3-strip 9 (oak)	3-strip 8	2-strip
Large baton 4	Large baton 6	Large baton 8

Mosaic 4	Mosaic 9	Mosaic 16
Industrial 3-18	Industrial 3-14	Industrial 3-10
Industrial 4-10	Fineline (bamboo)	Large baton (bamboo)
Cube 81		

Further designs on request.
