

ZOOM Berlin

Berlin, Germany

Project Description

On the site of the former "Aschinger-Haus", the ultra-modern ZOOM Berlin was built under the management of the American real estate group Hines.

The multi-purpose building, located between Kurfürstendamm and Berlin Zoo, was opened in 2018 and is very popular with its visitors and tenants. In addition to shopping areas, the new building offers sufficient space for various offices. Lindner realised the tenant fit-out for Hines Immobilien and Kialo GmbH.

Lindner was able to participate in this project in the product areas of floor systems, partition systems, heating and cooling technology as well as the general areas of complete fit-out.

In addition to the NORTEC and CAVOPEX floor systems and the associated floor covering work, the Lindner Life glass partitions and heated and cooled ceilings were used for the interior fit-out.

Lindner was also able to carry out the interior design work, such as tiling and carpentry.

General

Building Type	Sales Areas, Office buildings
Company Division	Lindner SE Ausbau Mitte.Ost
Completion	2018 - 2020
Client	Hines Immobilien GmbH, Kialo GmbH
Architect	Aukett + Heese Architekten GmbH
