Lindner

Building New Solutions

Building new solutions.

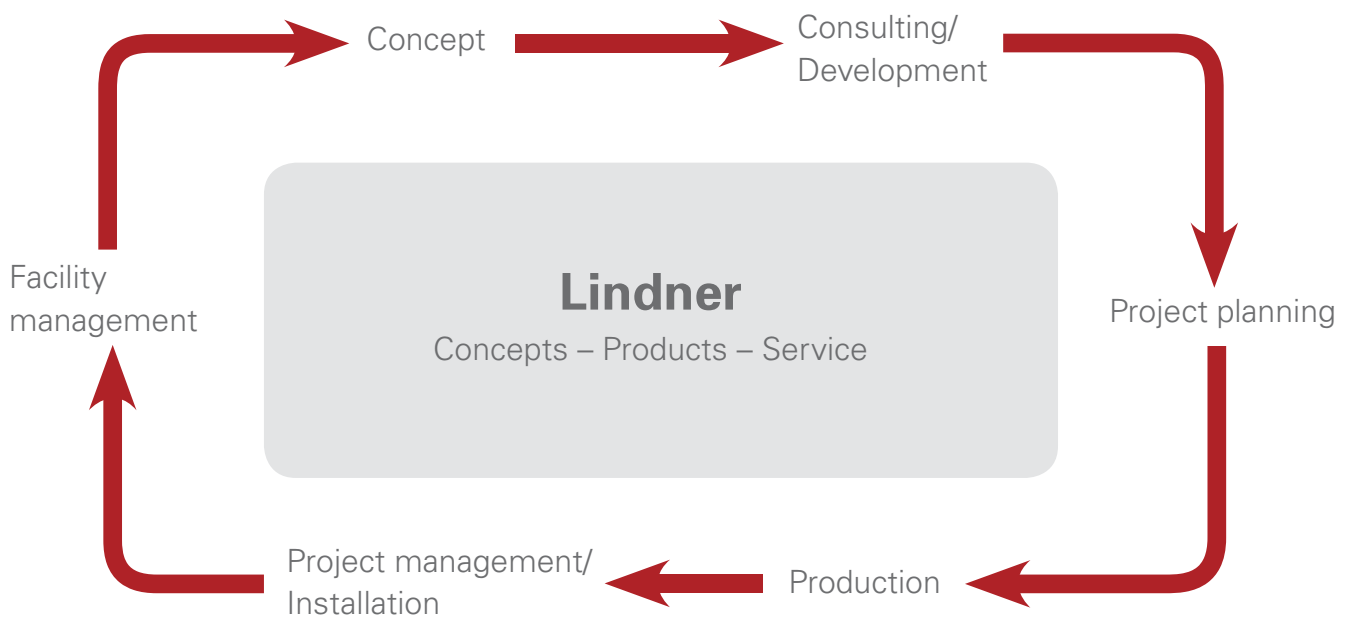

Lindner undertakes major worldwide projects in all areas of interior finishes, insulation technology, industrial services and building facades. From pre-planning through to project completion Lindner is your partner of choice.

The Company's extensive manufacturing capability enables quality to be strictly maintained whilst allowing maximum flexibility to meet individual project requirements.

Environmental considerations are fundamental to all Lindner's business principles.

Through partnerships with clients Lindner turns concepts into reality.

Everything from one source.

We offer you all our products and services individually or as a customised process chain – starting from your idea all the way to turnkey handover. Procedures intelligently coordinated with each other guarantee made-to-measure solutions and efficient construction with far fewer interfaces.

To us, “Building New Solutions” means fulfilling your dreams – with Lindner Concepts, Products and Services.

To bring your **concepts** to life, our numerous, highly specialised experts will work with you and with our innovative technologies to develop integrated all-in-one solutions for special projects, such as cinemas, airport terminals and clean rooms. In doing so, we will be at your side with numerous highly specialised experts as well as innovative technologies.

Our **product** portfolio welcomes the challenge of special requirements, and having our own research, development and manufacturing facilities allows us to fulfil your requests at any time. With numerous production sites in various countries, we can provide you with both system solutions and customised solutions within a very short period of time. Processes which are kind to the environment are our greatest concern and for this reason we only use tested and approved materials. Our dedicated Environmental Management policy guarantees, amongst other things, a reduction in emissions and energy consumption. Our continual quality inspection ensures maximum product reliability, a fact of which we are proud - our products are the cornerstone of our company.

We offer you a professional **service** at every stage of your project. Our exclusive, long-standing network of partners means that you can choose from a large pool of qualified skilled workers. Our relationship with our external supply chain partners means that we have extensive manufacturing capabilities, thus guaranteeing fast delivery and installation for all our products.

Profit from our three areas of activity for the successful implementation of your special requirements.

Choosing Lindner you have:

Lindner Concepts:
Tailored solutions specifically geared to satisfy individual project requirements

Lindner Products:
Quality materials and systems to the very highest industry standards

Lindner Service:
Comprehensive project management services

Turning your project into a show-stealer.

Innovative product solutions from Lindner.

See for yourself what Lindner can offer:

- Facades
- Ceiling Systems
- Lights and Lighting Systems
- Partition Systems
- Doors
- Floor Systems
- Heating and Cooling Technologies

Beauty with brains: Lindner Facades.

All Lindner products distinguish themselves by perfectly combining aesthetics and functionality. That's why building envelopes are much more to us than just a facade.

Frankfurt Technical College, Germany

We create innovative systems and bespoke solutions using the highest technical standards, to meet your specifications and expectations.

For us, no idea is impossible because our motto is "Building New Solutions"

Naturally this also applies to everything behind the facade. In the following pages you will discover our extensive range of products and the wide range of possibilities which Lindner can offer – and how we can turn even the most demanding projects into reality.

For your individual facade we offer:

- Many years of experience
- Unique expertise
- Extensive specialised equipment
- Continuous research and development keeping us at the forefront of new technology and innovations

Impressive Projects carried out by Lindner.

Since April 2006, Lindner has had a new expert on the team: the UK facade specialist Lindner Schmidlin Facades Ltd. The company had already made a name for itself over more than 25 years as Schmidlin (UK) Ltd., the former subsidiary of the Swiss owned Schmidlin AG Fassadentechnologie. With the completion of numerous projects around the globe, Schmidlin has helped set the standard in facade construction. Now it's time to turn your vision into reality.

City Hall, London, UK

St. Katharine's Estate, London, UK

Answering a higher calling: Lindner Ceiling Systems.

Just right for those who
want to go above and beyond.

Lindner has the perfect ceiling for every project:

- Post Cap ceilings
- Hook-On and Corridor ceilings
- Cassette ceilings
- Expanded Metal ceilings
- Honeycomb and Baffle ceilings
- Strip Panel ceilings
- Torsion Spring ceilings
- Canopy ceilings
- Fireproof ceilings
- Customised ceilings

Expanded Metal ceilings

Post Cap ceilings

Hook-On and Corridor ceilings

Fireproof ceilings: Helping you to stay on the safe side.

Lindner offers you a wide range of special fireproof ceilings, so you can benefit from the highest level of safety on all your projects. We even adjust the sound protection level exactly to your requirements – because, as the old proverb goes, “there’s strength in silence”!

Hong Kong International Airport Chek Lap Kok, China

Customised ceilings – just what you asked for.

You have unique requirements? We are happy to meet the challenge because we willingly develop customised ceilings to suit your exact requirements. Let your fantasies run wild: we will produce the most extraordinary shapes from a variety of materials for a variety of functions, should you so wish.

If you need suitable lighting solutions for your customised ceiling, look no further. See for yourself on the next page.

Perfect radiance: Lindner Lights and Lighting Systems.

Lindner offers a ray of hope for every room:

- With a wide range to suit every need
- With integrated, complementary ceiling/
lighting concepts
- With ready-to-use lights including ballasts
and bulbs

Put your rooms in the best light.

At Lindner you will find the greatest variety of lighting solutions to suit your room concept. Whether integrated lighting for special architectural illumination, flexible downlights or multifunctional canopy ceilings: with our solutions you will always cast the right light onto your interiors.

Interior architecture by brandherm+krumrey, Cologne/Hamburg

New solutions for individual highlights.

Lindner is happy to develop ambitious customised solutions for you, whether for:

- Airports
- Office complexes
- Hotels
- Shopping centres
- Public pools
- Fitness centres
- Exterior spaces
- Clean rooms

Talk to us: we look forward to helping you on your specific project!

We support you all the way: Lighting design and calculations.

We work with you through the implementation of your construction and lighting projects, from design to delivery. Or you can avail yourself of individual Lindner services at any time. Just leave the lighting design and calculation to us; you can rely on our years of experience and depth of expertise.

Naturally, the effect your rooms have on your occupants also depends on the walls. Discover our great selection of innovative partition wall solutions on the next page.

Divide and conquer your inner space: Lindner Partition Systems.

Shape your living and working worlds the way you want them.

Our partitions offer you a multitude of configuration possibilities for "Building New Solutions", giving your ingenuity free rein.

With our various glazed or partially-glazed solutions you can make enclosed spaces appear larger and more open and, of course, you determine how much of the inside you want seen from the outside.

Infineon, Munich, Germany

Lindner Partitions for every need: Fully opaque walls with a variety of surfaces, partially glazed walls, fully glazed walls and light feature walls.

Barmenia, Wuppertal, Germany

Your Flexible Solution.

Room layouts in work areas often change quickly. Lindner partitions can be easily adapted to new situations – all systems work on the same basic structure and are distinguished by their high degree of “flexibility friendliness”. It’s good for you to always be flexible.

So your rooms stay connected: Lindner Doors.

Keeping a door open on creative ideas, we deliver tailored door solutions as well. Thanks to our years of experience in bespoke and special doors, we exceed all expectations when it comes to security, functionality and design.

Special requests are welcome.

In fact, as many as you want: we gladly develop customised solutions for you in our own laboratories and product testing centres.

Don't let the sparks fly.

In the case of fire, doors can be lifesavers. Lindner provides maximum safety when it comes to fire and smoke protection.

Don't let your business experience a break-in.

Security also means protection from unlawful entry: Lindner has developed special deadbolts, safety locks and latches, so that burglars don't stand a chance.

Radiation? Please stay inside!

Radiation-protective doors are required in laboratories and hospitals. Lindner offers the right solution for every area. We deliver doors with audible or visual access or with lead glass panes.

Need a few minutes in private?

Sound protection is also important. Lindner Doors let you concentrate on work and discuss discreet matters "behind closed doors".

Stepping out with class: Lindner Floor Systems.

Sparkasse, Hagen, Germany

With raised and hollow flooring from Lindner, you can route data, communications, or in-house equipment intelligently. Cabling remains unseen but is accessible for maintenance at any time.

These innovative systems offer you a further advantage in that they can be used shortly after installation, allowing your workspace to be completed quickly and with confidence.

Our product range gives you the choice.

We have a long tradition of manufacturing flooring systems. We offer the most comprehensive product portfolio in the international market, allowing you to choose from a variety of solutions. In addition to other products, we manufacture calcium sulphate panels for raised flooring and hollow flooring. We are among the few companies to manufacture all components ourselves – from raw material to final product.

Raised floor system

Lindner quality in all floor systems:

- In-house manufacturing facilities at several locations
- Many years of practical experience on construction sites
- Highest quality monitoring, both internally and through external institutes
- Largest product portfolio in the international market
- One of few calcium sulphate manufacturers worldwide

FLOOR and more® – everything's possible.

FLOOR and more® is a jointless dry flooring system which can be installed quickly and which can be used after only one day – giving you complete freedom in interior construction.

Naturally FLOOR and more® is built to withstand the highest traffic, whether in a private home or in an office or industrial building.

Your advantages for "more floor freedom":

- Easy-to-lay dry flooring system
- Ready to use after one day
- Space for electric and computer installations
- Jointless surface
- High level of fire and sound proofing
- Additional functions such as heating and ventilation
- Ecologically friendly
- Can be installed anywhere

- 1 Choice of surfaces
- 2 Flooring elements with special edge connections
- 3 Adjustable steel substructure

Providing a comfortable climate: Lindner Heating and Cooling Technology.

Room temperature plays an important role in creating a pleasant living and working atmosphere. We have developed innovative heating and cooling technologies which allow you to constantly adjust each room to its optimal temperature – even when installed in an existing building.

Conrad Seminar House, Wernberg, Germany

Now you get acoustics and air conditioning under one roof. In office space, sound absorption, as well as temperature, plays a crucial role. This sound absorbent cooling ceiling regulates both – and works perfectly with Lindner Partitions and Floors.

For the benefit of both floor and partition walls.

We also supply intelligent heating and cooling systems for floors and partition walls, allowing you to fulfill your dreams.

Just ask us: we will find the best solution for your project!

FLOOR and more® comfort offers an integrated underfloor heating with highly effective heat reflection.

Thermal imaging – our service for heating and cooling systems.

With our integrated approach, we also offer you appropriate support services for all our products and concepts. We carry out thermal imaging to check the performance of your heating and cooling systems.

Thermal imaging measures heating and cooling system efficiency.

DIN EN473 certified

Possible fields of application:

- Building services
- Development and quality assurance
- Industrial thermal imaging
- Building thermal imaging

We can do it all for you.
