Service

Dreams come perfectly true.

Lindner Service: competent support at every stage of your project.

Lindner

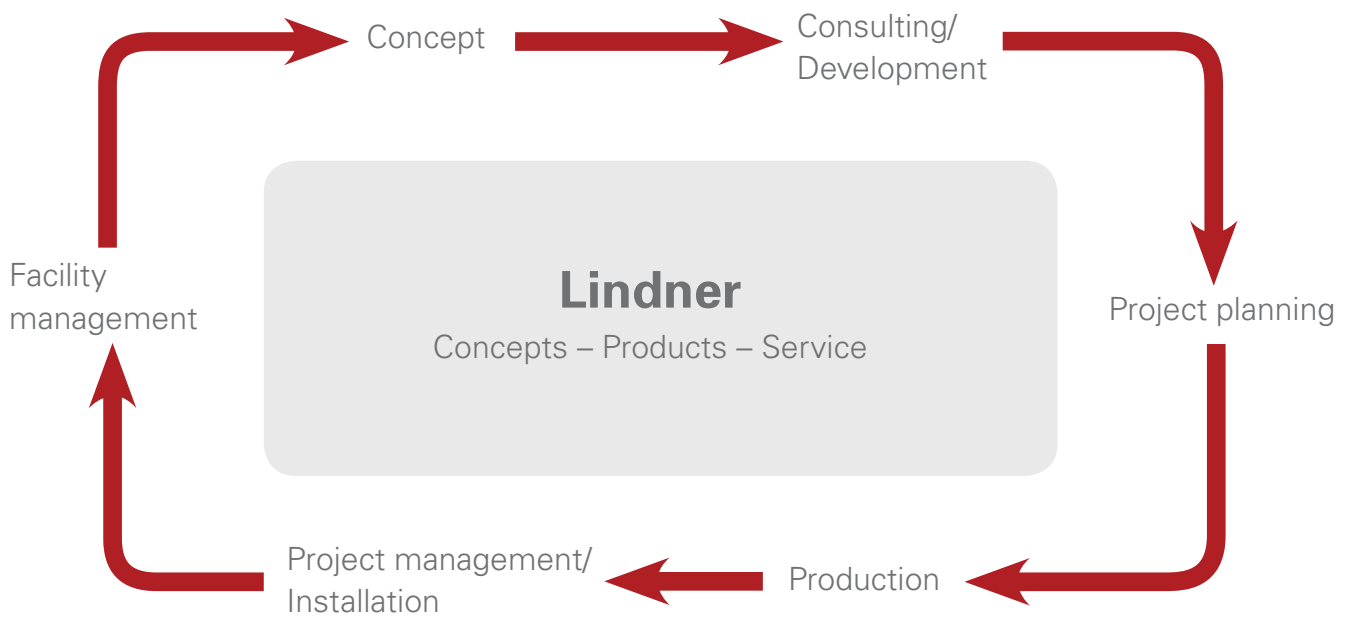

Building New Solutions

Building new solutions.

Lindner realises projects worldwide in all areas of interior finishing work, insulation technology and industrial services as well as facade construction. From planning to realisation, we support you competently within the framework as an active partnership. Our extensive range of manufacture allows us to set standards in the fusion of design and functionality, enabling maximum flexibility for individual requirements. In doing so, pronounced ecological thinking is a prerequisite for us. We find the best possible solution and realise your wishes, as your comprehensive partner:

For your ideas, and for your success.

Everything from one source.

We offer you all our products and services individually or as a customised process chain – starting from your idea all the way to turnkey handover. Procedures intelligently geared to one another guarantee you made-to-measure solutions and efficient construction with far fewer interfaces.

To us, “Building new solutions” means realising your ideas – with Lindner Concepts, Products and Services.

In the area of **concepts**, together with you we develop integrated all-in-one solutions for special projects, such as cinemas, airport terminals and clean rooms. In doing so, we will be at your side with numerous highly specialised experts as well as innovative technologies.

Also, in the case of our **products**, we see a welcome challenge in special requirements, and having our own research, development and manufacturing allows us to fulfil your requests at any time. With numerous production sites in various countries, we can provide you with both system solutions and customised solutions within a very short period of time. A healthy environment is our greatest concern with all processes and for this reason, we only use tested and approved materials. With our selective environment management we guarantee, among other things, a reduction in emissions and energy consumption. Our continual quality inspection guarantees you maximum product reliability. We are proud of this, because our products are the basis of our company.

We offer you a professional **service** at every stage of your project. Our exclusive, long-standing network of partners guarantees you large capacities of qualified skilled workers. Due to our collaboration with our external supply chain partners, we have extensive manufacturing capability, thus guaranteeing fast delivery and installation of all our products.

Profit from our three scopes of activity for the successful realisation of your special requirements.

That's what we can do for you.

Lindner Concepts:
Individual solutions from one single source for individual industries or specific requirements.

Lindner Products:
Materials and systems in premium quality for all fields of interior fitting and facade solutions.

Lindner Service:
Services for a comprehensive project management.

So, let's get down to business!

Lindner Service – your strong
partner in all areas.

We are always there for you with:

- general planning
- development and design
- supply business
- installation
- maintenance

Building with few interfaces: Lindner General Planning.

AWO, Berlin

In the redesigning of the office areas, Lindner was responsible for the general planning.

Lindner supports you during each phase of your project also as a service provider. Have us carry out your entire planning, and minimise your co-ordination expenditure and prevent frictional losses. We not only look after the turnkey execution but also all upstream and downstream performance (performance phases as per HOAI, maintenance and upkeep). Our architects and our CAD team will provide on site support to you at all times.

You can, of course, also obtain all of our services individually, allowing you to execute your project just as you wish.

Planning and execution: we know the ins and outs.

Our general planning operations are constantly developing. Lindner has already concluded framework agreements with renowned companies. This success is no accident because we know what we're talking about – many years of practical experience have made us a strong partner for your project planning.

Commerzbank branch office, Berlin-Schöneberg

Lindner offers you overall national presence, our own capacities, short reaction times and partnership with a strong company for any building project: from small to large-scale projects.

Commerzbank branch office, Berlin-Nord

Lindner was responsible for the entire redesigning of the consulting centre.

Made-to-measure solutions for ambitious projects: Lindner Development and Design.

With Lindner Development and Design, there are no limits to your inspiration. As your active partner, we make out-of-the-ordinary and highly sophisticated projects come true. What's more we in fact look forward to such challenges. You can rest assured that we combine aesthetic appeal with a high degree of functionality and the maximum safety possible, making even the most ambitious projects a reality. Because our forte is: „Building new solutions“!

Innovation in a new dimension.

A great many designers, engineers and technicians in our research and development department will be at your side, guaranteeing consistent realisation during the project phase. This is how we ensure even the most off-beat projects are a success!

Stadttheater, Bielefeld

For Bielefeld's Stadttheater, an arched suspended ceiling was custom developed by our organisation. We also carried out the interior finishing of the entire auditorium including, among other things, stepped wall cladding and access floors, balcony parapets and balcony cladding, T30 doors and director windows.

Make something extraordinary come true.

With Lindner Development and Design:

- customised solutions for design, statics, acoustics and fireproofing
- a high degree of specialised competence
- made-to-measure designing according to your wishes
- maximum standards in terms of styling and aesthetic appeal

Testing of fire behaviour in accordance with DIN EN 1634-1.

Service that provides you a lot very rapidly: Lindner Supply Business.

We offer you extensive production capacities at a maximum technical level. On request, our qualified personnel will be glad to provide you with instruction and guidance for installation.

Stay flexible!

Our national and international supply business makes it possible for us to provide you with all products required very rapidly. That's how to stay flexible. In Germany we ensure fast delivery with LEX, our own trading company. In addition to this, we co-operate with numerous partner companies worldwide. This way we can always offer you competitive prices even for customised solutions.

With Lindner product solutions you get short delivery times at the best value for money in any quantity desired.

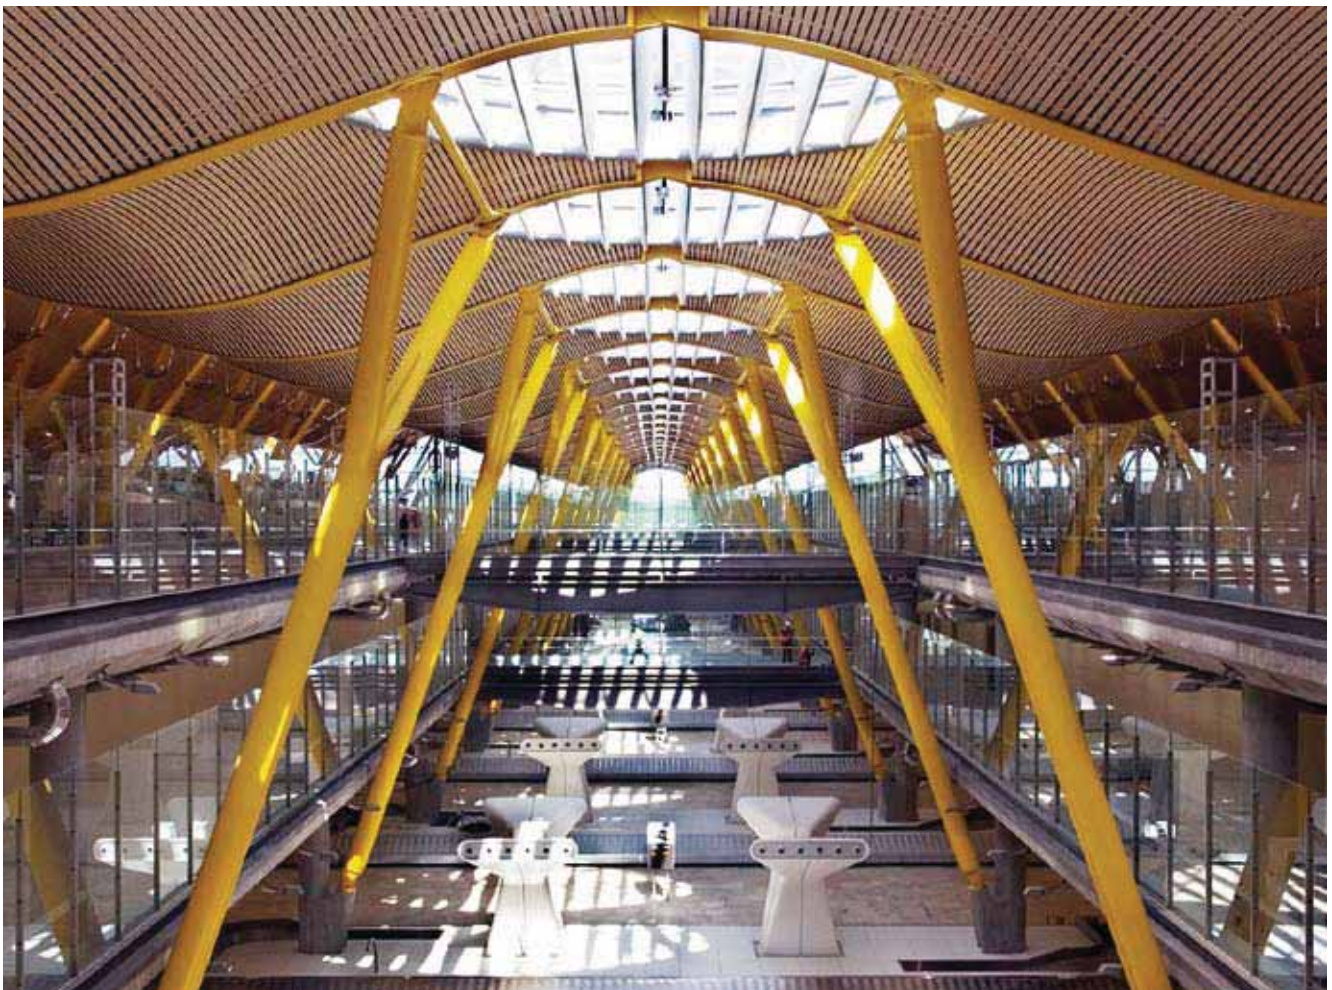

Bank of River Oaks, Houston/Texas (USA)

Lindner manufactured and supplied the transparent ceiling canopy made of perforated steel.

Luxembourg Plaza, Prague

For this project, Lindner supplied all the access floors. The installation was carried out fast and professionally by our local partner company.

International Airport Barajas (New T4 Terminal), Madrid

Lindner handled the entire development and production as well as supplying the non-combustible bamboo ceiling.

For products seeking a permanent position: Lindner Installation.

If you want products and installation from one source, we're the competent partner for you to talk to. With us you profit from perfect installation because we, of course, know our products best. We carefully look after quality control, logistics, procurement and storage, controlling of financing, operations supervision as well as safety and health matters. Custom support is guaranteed.

When you want to do something big.

So, you've taken on a heck of a lot? Good! We can provide you with high capacities of qualified employees very rapidly, even for those extensive projects. So, go ahead and increase your expectations – and discover the possibilities that Lindner Installation opens up for you.

Siemens, Munich

Frequentis, Vienna

Federal Chancellery, Berlin

With us you not only get customised product solutions but also the services they require all from one source.

Lindner Installation means this for you:

- a personal contact available locally
- qualified staff
- a worldwide network of longstanding partners
- a pool of qualified personnel
- extensive special-purpose equipment
- very high safety standards

There you are with your building complete and no janitor in sight to hand the key over to? Talk to us we'll be glad to assume all the maintenance work for you. Find out more about this on the next page.

For living and working after the key is handed over: Lindner Maintenance.

Be it necessary inspections or renovations, conversion of room partitioning or classic janitor work, you can count on us. As experienced interior finishing specialists, we can provide an entire range of mechanical and utility services as well as facility management. We will be glad to assume the entire commercial, technical and infrastructure building management for your project so that your property is always in excellent condition even after the key is handed over.

Frequentis, Vienna

From planning and execution all the way through to maintenance, Lindner is your highly specialised partner for „Building new solutions“ in customised fashion in the service sector.

All-round support.

Our many years of know-how from planning to comprehensive building management guarantees you all-round support with maximum cost transparency. We stand for prompt service and the greatest possible quality of performance. Furthermore, to make it possible for you to save money on top of this, we are glad to analyse where there is potential for savings.

Special Services.

Need support with the planning and calculation of lighting, or want to have your heating and cooling systems examined for functional efficiency? Just get in touch with us. Our specialists will help you with all necessary renovations and inspections.

E-Zone, Vienna

We can do it all for you.
