

RIBline Timber Slats Ceiling Solo System

Cladding system

Introducing RIBline, the ultimate ceiling cladding solution designed to blend aesthetic appeal, environmental responsibility, and superior safety standards.

RIBline Timber slats are Lindner's new ceiling cladding system, perfect for modern look. The wooden appearance of veneer on the lamella adds texture to the space, while the gypsum core makes them fire retardant.

RIBline offers a lamella/baffle ceiling system that redefines modern interiors; available in versatile individual lamella or pre-assembled panels for easy installation. RIBline Solos/ Panels for unfinished ceilings provide tailor-made solutions to suit your project requirements. We create a harmonious ambience with seamless transitions and a hidden substructure that ensures outstanding appearance of your designed room.

Choose RIBline and transform your ceiling into captivating canvases that echo sophistication and responsibility.
