

WOODline

Parquet on raised floors

WOODline parquet flooring consists of 4 mm thick solid wood top layers, which are factory-bonded to either raised floor panels (LIGNA / NORTEC) or dry hollow floor panels (FLOOR and more®). The top layer is available in all common wood types and designs, can be coated with either lacquer or oil and is protected by color-coordinated edge protection when applied to raised floor panels.

The uniform appearance, factory application and on-site surface treatment enable quick, cost-effective installation and seamless combination of both flooring systems.

This product data sheet is only valid in conjunction with the product data sheet of the respective floor panel!

- Parquet layers from our own production with the highest quality
- Certification according FSC™ possible
- Combination possibilities with our raised floors and boarded parquet "Gallery board"
- Combination possibilities with our industrial design planks
- Real wood layer
- Further types of wood and designs upon request

Examples for areas of application

Public Areas: Entrance Areas, Escape Routes

Work: Common Rooms, Facilities for Meetings, Conventions and Conferences, Stage and Studio Rooms, Office Buildings, Broadcasting Rooms, Television Studios, Assembly Rooms

Education: Libraries, Research Rooms, Schools, Universities and Higher Education Buildings

Businesses, Recreation and Culture: Shopping Centres, Sales Areas, Banks, Cinemas and Multiplex Theatres, Concert Halls, Theatres and Opera Houses, Museums and Galleries, Places of Assembly

Healthcare: Pharmacies (Production), Clinics and Hospitals

Hotels and Gastronomy: Restaurants and Catering Facilities, Hotels and Resorts

Public Institutions: Courts and Correctional Facilities, Town Halls, Government and Administrative Buildings

Transport: Railway Stations, Airports

Residential building

Technical details

Technical data

- **Thickness:** 4.0 mm
- **Length:** 600 mm
- **Width:** 600 mm
- **Building class:** C_{fl}-s1
- **Emission class:** E1
- **Air Comfort Gold:** fulfilled
- **AgBB ABG:** fulfilled

Surface lacquered

- **Build-up:** 6-layer UV curing lacquer
- **Variants:** lackiert farblos

- **Gloss level:** matt
- **Slip resistance class:** R9
- **Durability:** Class 6
- **Types of wood:** oak, smoked oak, ash eco, bamboo light, steamed bamboo
- **Wood grading:** We use a wood grading with typical structure and play of colours, partly containing small sound knots.

Surface oiled

- **Build-up:** 2-times hard wax oiled
- **Gloss level:** matt
- **Slip resistance class:** R9
- **Types of wood:** oak, smoked oak, ash eco, bamboo light, steamed bamboo
- **Wood grading:** We use a wood grading with typical structure and play of colours, partly containing small sound knots.

Surface sanded

- **Surface:** Pre-sanded; contamination/marks caused by application to the carrier panel are possible and have to be accepted.
- **Utilisation:** Surface coating on construction site; cleaning sanding is essential.
- **Note:** Coating must be applied immediately after installation. No liability is accepted for damage caused by incorrect storage. The surface agents used must be approved by the manufacturer. Risk of edge bonding.
- **Types of wood:** oak, smoked oak, eco ash, light bamboo, steamed bamboo.
- **Wood grading:** we use wood grading with typical structure and colour variation, including some small, firmly attached knots.

Variants

Types of wood

Bamboo (light) ecrú, steamed bamboo, oak, smoked oak, ash eco. Other types of wood are available on request.

As with all natural products, wood differs in colour and structure. Screen colours cannot reproduce the colour of the parquet exactly, therefore small differences might occur.

Oak

Smoked oak

Bamboo (light) ecru

Bamboo steamed

Ash eco
