

## Industrial plank

### 3-layer parquet plank with tongue and groove system

3-layer prefabricated parquet plank with tongue and grooving system for full-surface bonding on conventional screed or dry screed systems. The strip design of the board is based on the industrial designs of the raised access floor coverings. With the same look, it is possible to combine conventional screed surfaces with raised floor.

- Multi-layer parquet planks from our own production with highest quality
- Combination possibilities with our raised access floors
- Real wood layer
