

A modern hallway with a wavy wooden ceiling and grey walls. The ceiling is made of light-colored wood slats arranged in a wavy pattern. The walls are a dark grey color. On the left, there is a doorway with a red light strip above it. On the right, there are several doorways. The floor is a light grey color. The hallway leads to a room with a wall of horizontal wooden slats.

WELLS FARGO TYSON'S CORNER

MCLEAN, UNITED STATES

Description:

Lindner Curved baffle ceiling with real wood veneer complimented the new image of inter-departmental synergies at Wells Fargo Tyson's Corner, created a unique room atmosphere and improved acoustics.
