

Description:

The Italian branch of the German Teekanne Group expanded its headquarters in Bolzano by adding additional office space. Particular importance was attached to a high-quality working environment where employees and customers feel comfortable: Soft lines structure the office zones, acoustically effective elements and striking colours round off the overall impression.

In the new office spaces, Lindner realised ceiling systems with integrated luminaires: In combination with the colour concept, the LED tracks zone the area boundaries – without the use of partition walls. The acoustically effective Lindner heated and chilled ceilings, in parts with deep matt powder coating, ensure a pleasant climate and a quiet working environment. The hollow floor system from Lindner accommodates installations and is free of harmful emissions.

General:

Concept/Product:	Heating and cooling technologies, Floor Systems, Lights and Lighting Systems
Building Type:	Office buildings
Partner:	Fkontract, www.fkontract.com
Architecture:	De Biasi & Comploi Architekten
Company Division:	Lindner SE Interior Product Supply
Completion:	2019

Completed Works:

Heated and chilled metal ceilings

Plafotherm® B - Post Cap ceilings

Plasterboard heated and chilled ceilings

Plafotherm® GK HEKDA - plasterboard ceiling

Hollow floor systems

FLOOR and more®

Luminaires and Lighting Systems
