

**WESTENDGATE**

**FRANKFURT, GERMANY**

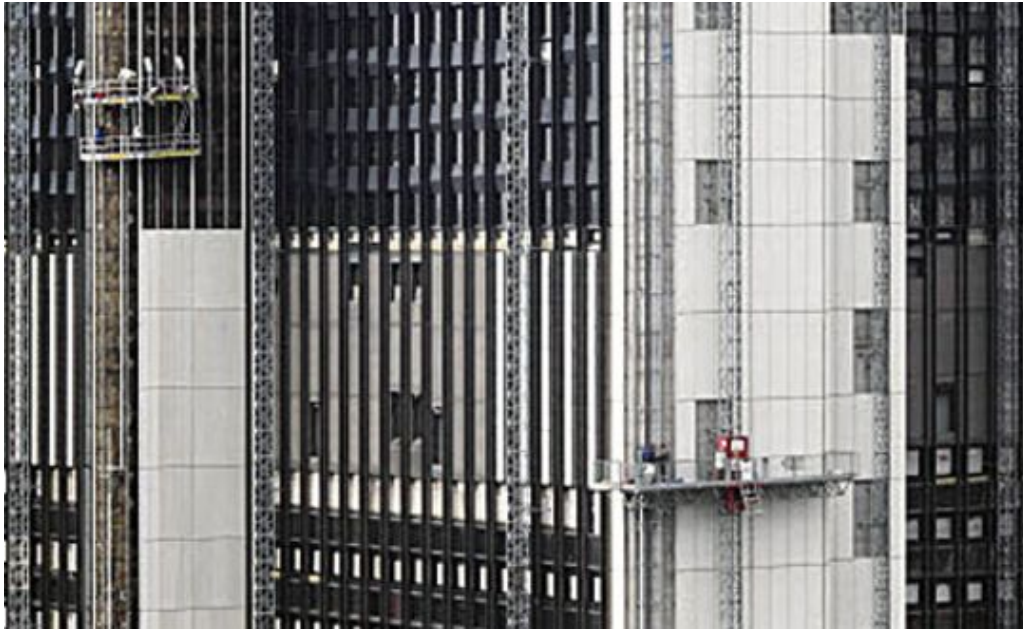

## Description:

The WestendGate in Frankfurt, also known as the Marriott Hotel, was refurbished extensively. Lindner was responsible for the revitalization of the facade. The works included the removal of hazardous materials in the spandrel areas, the new finishing of the rainscreen cladding with integrated solar panels, the replacement of blinds, the sealing of the balustrade areas including the metal sheet linings and the cleaning and the recoating of the technical floors.
