

THE CHEDI ANDERMATT*****

ANDERMATT, SWITZERLAND

Description:

The Chedi Andermatt, which is the first European hotel of the luxury hotel chain GHM, remains to be matched in terms of exclusiveness and luxury. Its exterior design allows the hotel to fit right into the surrounding scenery of a Swiss mountain village. The interior design successfully combines high-quality materials and sophisticated architecture while avoiding "showy" accents one would expect in a 5-star hotel. The Chedi aims to be a quiet retreat after a long day on the ski runs of Andermatt.

Lindner Objekt-design GmbH and the specialist department for international projects contracting of Lindner SE were contracted with the fit-out of the public areas, which includes all fixed installations. Furthermore, the fit-out of the back-of-house areas was also controlled and executed by Lindner.
