Heathrow Airport London – Glass wall cladding Lindner Free Individual

Wall cladding for your security – Lindner Free Airports

In case of an attack glass becomes a big danger. **For your protection** Lindner developed a partition system especially for airports and other public locations with crowds of people. In case of a booby-trap attack no splinters or particles can spread around and hit someone, thanks to this system. **Your risk of injury recedes considerably.**

Because of a **special developed structure** the glass wall cladding Lindner Free Airports passes the „**Bomb Blast Test**“ successfully.

Your requirement is our challenge!

Sharp and invisible – Lindner Free Individual

On customer´s request Lindner designed our metal wall cladding Lindner Free with **invisible mounting** having no visible screws.

The metal wall cladding is featured with steel and aluminum sheets as well as with **sharp edge** at the same time.

We will find a solution tailored to your individual needs.
