

LEATHERline

Top covering made of leather fibre fabric on raised floors

LEATHERline is applied at the factory in form of tiles on raised floor panels made of wood-based material, type LIGNA, or calcium sulphate, type NORTEC. The top layer made of high-quality leather fibre fabric is available in various colours and embossings. The protective edge trim is colour-matched to the chosen colour of the top layer and is led up to the top edge to protect the leather.

The production of the leather fibre fabric is comparable to the manufacturing process of paper. Depending on customer requirements, specific recipes are compiled from leather off-cuts from the leather processing industry, crushed by machine and mixed with vegetable tanning agents, natural rubber, natural fats and water. This means that the material consists of more than 90 % genuine leather residues and has been awarded the LEATHER STANDARD by OEKO-TEX®. All necessary tests to ensure product suitability are available.

This product data sheet is only valid in combination with the product data sheet of the corresponding carrier panel!

- pleasant feel due to the warm, soft surface
- lacquered surface
- very high and reproducible homogeneity despite natural materials
- consists of more than 90 % renewable and natural raw materials
- certified according to LEATHER STANDARD by OEKO-TEX®

Technical data

Thickness		3.0 mm
Weight per unit area		2,800 – 3,000 g/m ²
Colour fastness to light	ISO 105	> 7
Residual indentation	ISO 24343-1	< 0.10 mm
Classification	EN 16511	class 32 (normal commercial use)
Abrasion resistance class	EN 14354 and EN 13329	AC4
Stain resistance	EN 438-2	no visible changes
Exposure to chemicals	EN 423	very good resistance
Castor chair suitability (type W)	EN ISO 4918	fulfilled
Slip resistance class	EN 51130	R9
Furniture leg displacement	EN 424	no visible damage
Thickness swelling (24 hours)	EN 317	< 8 %
Charging voltage (body voltage)	EN 1815	< 2 kV

Surfaces

Colours		Coffee, Sand, Night, Rust (standard)
Embossings		soft, character, nature (standard)
Gloss level		matt

Standard range

Coffee		
Dimension	608 mm x 608 mm	
Thickness	3.0 mm	
Surface embossings	soft, character, nature	
Sand		
Dimension	608 mm x 608 mm	
Thickness	3.0 mm	
Surface embossings	soft, character, nature	
Night		
Dimension	608 mm x 608 mm	
Thickness	3.0 mm	
Surface embossings	soft, character, nature	
Rust		
Dimension	608 mm x 608 mm	
Thickness	3.0 mm	
Surface embossings	soft, character, nature	

Surface embossings

soft	smooth structure, very light embossing	
character	heavy embossing	
nature	vivid structure, fine grain
