

## Areas of application

- Office and conference rooms
- Industrial and factory areas
- Training and research facilities

## Construction options

- Single glazing

## Combinable wall panels

- System wall absorber in timber, metal and material

## Description

The continuous fully glazed partition Lindner Life Nature ensures an open and transparent sense of space. This is complemented by a warm natural material with profiles made of bamboo. As an option profiles of oak are available. The construction of the system enables a assembly directly on site and allows a flexible adjustment to the spatial conditions.

	<b>Dimensions</b> (depending on material used)		
	Module width	Standard up to 1250 mm	
	Height	Standard up to 3000 mm depending on glass thickness	
	<b>Please note:</b>	<b>The maximum wall height and the maximum module width can differ depending on the building physics!</b>	
	Wall thickness	55 mm	
	Joint width	ca. 3 mm	
	<b>Technical data</b>		
	Weight	ca. 25 - 40 kg / m <sup>2</sup> (fully glazed partition)	
	Tolerances	± 10 mm in height and width resp. according to project-related planning	
	Structural performance	<ul style="list-style-type: none"> <li>• Oak: Installation area 1 and 2</li> <li>• Bamboo: Installation area 1 non load-bearing partition wall according to DIN 4103</li> </ul>	
		<b>Sound insulation</b>	
		ISO 140-3 / ISO 10140-2	up to 40 dB Rw (=laboratory value)
	<b>Green Building</b>		
	Product characteristic	DGNB- / LEED- compliant	
	<b>Guidelines</b>	Lindner visual assessment criteria for glazing systems	

## Build connections

- **Joint seals:**  
the vertical joints are made with transparent tape or silicon
- **Connections:**  
connections with wooden profile or silicon

## Substructure

- wooden profiles

## Applicable standards

- DIN 18202
- DIN 1249
- DIN EN ISO 12543
- DIN EN ISO 10140-2
- DIN 4103

## Surface finish glass

- Foils
- Screen printing
- Enamel
