

BMW Vierzylinder

Munich, Germany

 **Lindner**

© Lindner, Arnstorf (D)

Project Description

Lindner received the contract for the dismantling of all ceiling, floor and wall constructions plus the gutting of the complete listed high-rise building into its shell construction. Afterwards the BMW headquarter and large parts of the BMW museum were fitted with heated and chilled ceilings, partitions, floor systems and furthermore Lindner carried out extensive insulation works.

- **Partitions**
Partition Systems Glass
Additional Equipment- Lindner Plus
Doors for Partition Systems
- **Insulation Engineering**
