

THE SQUAIRE

Frankfurt, Germany

Project Description

"THE SQUAIRE", formerly known as "Airrail Center Frankfurt", is the extension of the existing long distance railway station at Frankfurt International Airport. Being 660 metres long and 45 metres high it extends over the railway station and contains office and retail space as well as room for a hotel. Lindner manufactured and fitted chilled ceilings at a size of 80.000 square metres. Furthermore Lindner partition systems and doors were installed.
