# Project Description

Tsvetnoy Central Market is a 7-storey shopping mall located in the centre of Moscow.

The mirrored ceiling consists of 2600 panels in 1600 different shapes and is based on LMD-E 213. The unique 3D-design (TOUCHdesign) of its highly-polished stainless steel surface gives it a one-of-a-kind look. Some of the works had to be carried out at a height of 30m or at night when business was still going on. Lindner also performed paint and plaster work.
