

# Nord-Süd Stadtbahn, Heumarkt Station

Cologne, Germany

# Project Description

At 'Heumarkt' station the Nord-Süd-Stadtbahn meets the planned east west train connection. The train station is currently under construction. Lindner fitted 4,000 square metres of a perforated plate cover ceiling and 5,000 square metres of sound absorption plates to the ceiling and the walls of the vault and the stairs. The works were carried out from a 65.000 m<sup>3</sup> birdcage scaffolding.
