Miejski Stadium Wroclaw 2012

Breslau, Poland

Lindner

© Lindner, Arnstorf (D)

Project Description

Miejski Stadium was designed in the shape of STADIUMLanterns. The primarily silhouette accentuates the very innovative facade. The building envelope consists of fiberglass mesh coat with teflon coating, which is uinque in Poland. Lindner fitted raised and hollow floor systems, plasterboard ceilings, metal and hygienic walls, Aquaroc plates and spout cement screed.
