

Next DC – M1 Data Centre

Port Melbourne, Australia

© Fretwell Photography

Project Description

M1 Melbourne data centre is the largest independent data storage centre in the city and therefore NEXTDC's flagship. It has a size of 17,500 m² with 6,000 m² technical space separated into 6 halls. Lindner fitted the premises with 5,200 m² of a NORTEC raised floor.
