Project Description

In September 2014, the construction works at the €200 m new construction of Siloah Medical Centre have been completed. The building features 535 beds that are used for over 27,000 patients each year. Siloah Medical Centre is one of the most modern clinics in Germany. Its patients enjoy optimum medical treatment in a sophisticated environment, which also benefits the staff of the facility. Lindner Reinraumtechnik GmbH was involved in the interior fit-out of the intensive care and infection wards. Furthermore, Lindner was responsible for the complete interior fit-out of the surgery ward and the planning, production and installation of all sliding doors in the building.
