

Falkensteiner Wien Margareten****

Vienna, Austria

© Walter Lüttenberger

Project Description

Falkensteiner's flagship city hotel Wien Margareten offers high functionality and a lot of comfort in the heart of Vienna. The building features 195 rooms and suites, a large spa area, four conference rooms, a bar and a restaurant. Concerning the architectural style, a modern interpretation of the so-called Biedermeier era has been implemented by Matteo Thun throughout the hotel. As a part of the interior fit-out, Lindner Mobilier s.r.o. has been contracted with the production and installation of built-in fixtures in the public areas, including wall claddings, cabinets, partitions, mirrors, counters and windowsills.
