# Project Description

In Nuremberg's industrial parc in its northeast, the Air Campus was built with a total area of approximately 54,000 sqm, spread over four buildings. The building complex unites well-known representatives and start-ups from diverse sectors such as automotive, telecommunications or consulting companies. The construction is characterized by state-of-the-art office concepts and an extraordinary environment to promote innovative work. One of the tenants is the accounting and tax consulting firm Rödl & Partner with a share of about 6,500 m<sup>2</sup>, which sets the course for further growth by moving into the campus as a second location in Nuremberg.

As part of the interior design of Rödl & Partner, Lindner was able to contribute the glass partition walls and floor systems. The glass partitions of the types Lindner Life Stereo 125 and Lindner Life Pure 620 provide spatial separation and still create transparency and openness. As to the floors, Lindner conducted a refurbishment of the existing systems and fitted about 500 m<sup>2</sup> of new LIGNA raised floors.

# Completed Works

- **Partitions**

Partition Systems Glass  
Doors for Partition Systems

- **Floors**

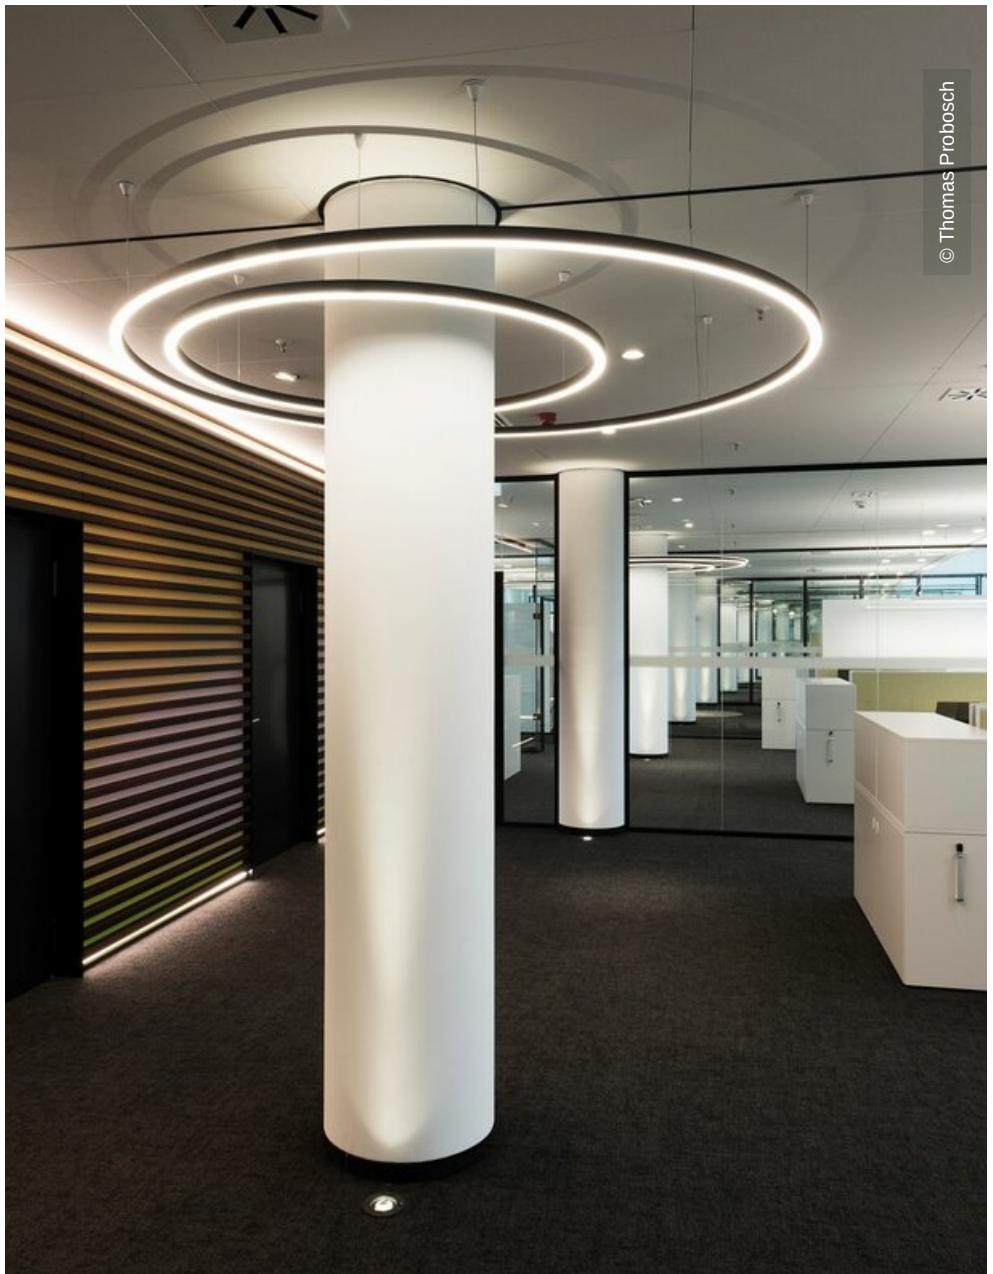

Chipboard Panels  
LIGNA

## General

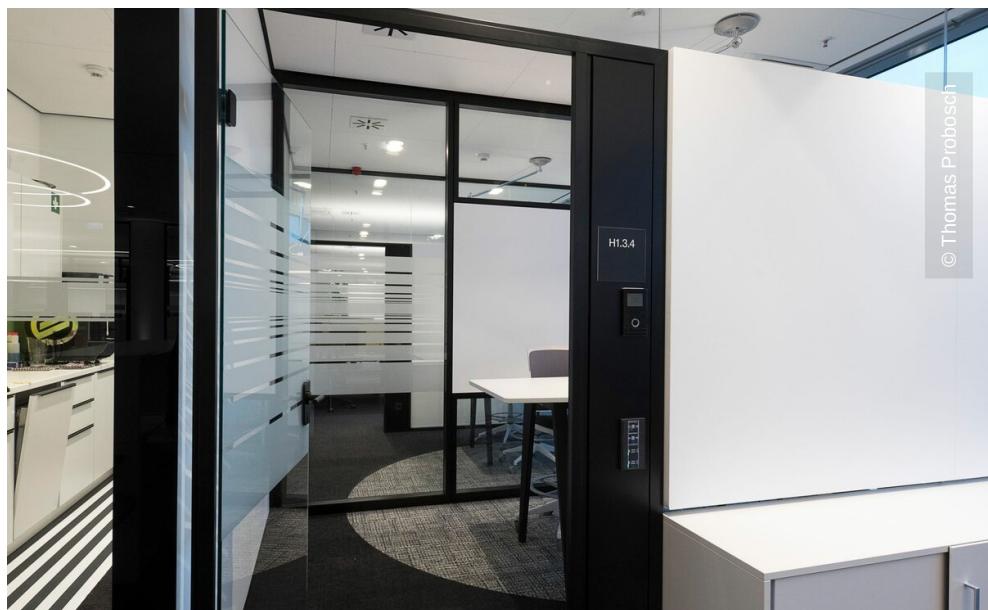

Building Type	Office Buildings, Industrial and commercial construction
Company Division	Lindner SE   Partitions
Completion	2018
