

Air Campus Nuremberg tenant fit-out

Rödl

Nuremberg, Germany

© Thomas Probosch

Project Description

In Nuremberg's industrial parc in its northeast, the Air Campus was built with a total area of approximately 54,000 sqm, spread over four buildings. The building complex unites well-known representatives and start-ups from diverse sectors such as automotive, telecommunications or consulting companies. The construction is characterized by state-of-the-art office concepts and an extraordinary environment to promote innovative work. One of the tenants is the accounting and tax consulting firm Rödl & Partner with a share of about 6,500 m², which sets the course for further growth by moving into the campus as a second location in Nuremberg.

As part of the interior design of Rödl & Partner, Lindner was able to contribute the glass partition walls and floor systems. The glass partitions of the types Lindner Life Stereo 125 and Lindner Life Pure 620 provide spatial separation and still create transparency and openness. As to the floors, Lindner conducted a refurbishment of the existing systems and fitted about 500 m² of new LIGNA raised floors.

Completed Works

- **Partitions**
Partition Systems Glass
Doors for Partition Systems
- **Floors**
Chipboard Panels
LIGNA

General

Building Type	Office Buildings, Industrial and commercial construction
