Project Description

The luxury Fraser Suites Hamburg hotel is located in the heart of the Hanseatic city at the Rödingsmarkt - a perfect downtown location. It is situated there in the historic Oberfinanzdirektion, the office of the former Hamburg tax authority. This special building is listed and dates back to 1907. Many historic elements have been preserved during its conversion into a hotel. For the interior fit-out of the 154 rooms and the public areas, Lindner provided a complete FF&E package including built-in and freestanding furniture as well as numerous different appliances and fittings, textile decoractions and luminaires.
