Project Description

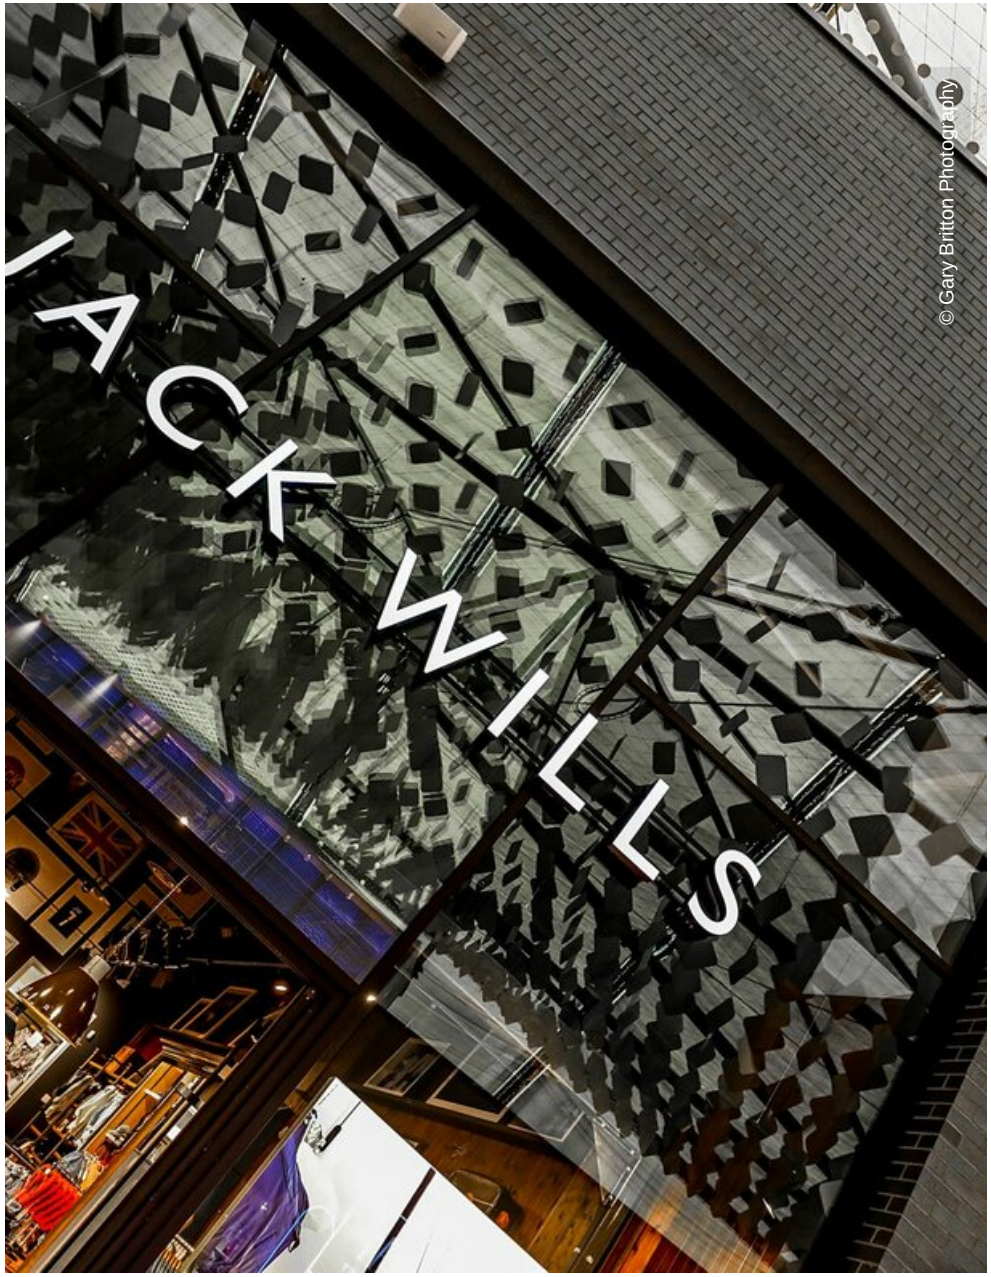

The O2 in London is the world's most successful music and entertainment venue. Project Mint was the development within the O2 dome of 80 new retail outlets to form a 400,000 sq ft designer outlet "Icon Outlet" for the owner and operator AEG. Designed by architect Callison RTKL, and with ISG as main contractor Lindner Interiors contributed to the construction of the fit-out with a scope of works included: 4,500 m2 SFS, 8,500 m2 of dry lining, 2,000 m2 of ceilings – including: Render, Timber Baffles, Metal Copper GRG. In addition, 4,500 m2 of Façade finishes including: Metal Rain Screen Cladding. Render Cladding, Brick Slip Cladding, Copper Cladding, & Glass Smoke Screens. With multiple finishes, specialist trades and products this challenging project has created an attractive public space that is truly an Icon that Lindner Interiors are proud to have been a part of. The Icon Outlet is now home to world famous brands such as Kurt Geiger, Levi's, Osprey, Ted Baker, Tommy Hilfiger to name but a few.
