Stücki Park House G

Basel, Switzerland

Lindner

© Ralph Bensberg

Project Description

The Stücki Shoppingcenter Basel, inaugurated in 2009, will become Stücki Park in an extensive expansion and redevelopment by 2023.
For several months now, the area has been revitalized and expanded by several properties. In addition to a large cinema, retail stores and numerous service providers, more than 70,000 m² of office and laboratory space will complement the park in the future. Lindner was able to provide parts of the tenant fit-out of the office and laboratory space.

In the first stage, Lindner installed real wood veneered partitions as well as metal partitions in House G. In the office areas, Lindner glass partitions with real wood veneered profiles on the inside and a black bonding create a stylish working environment. The partition systems with white profiles and Optiwhite glazing as well as white bonding complete the interior design in the laboratories.

General

Building Type	Laboratories and Research Facilities, Office Buildings, Industrial and commercial construction
Company Division	Lindner SE Arnstorf | Branch Opfikon
Completition	2020
Client	Halter AG

Completed Works

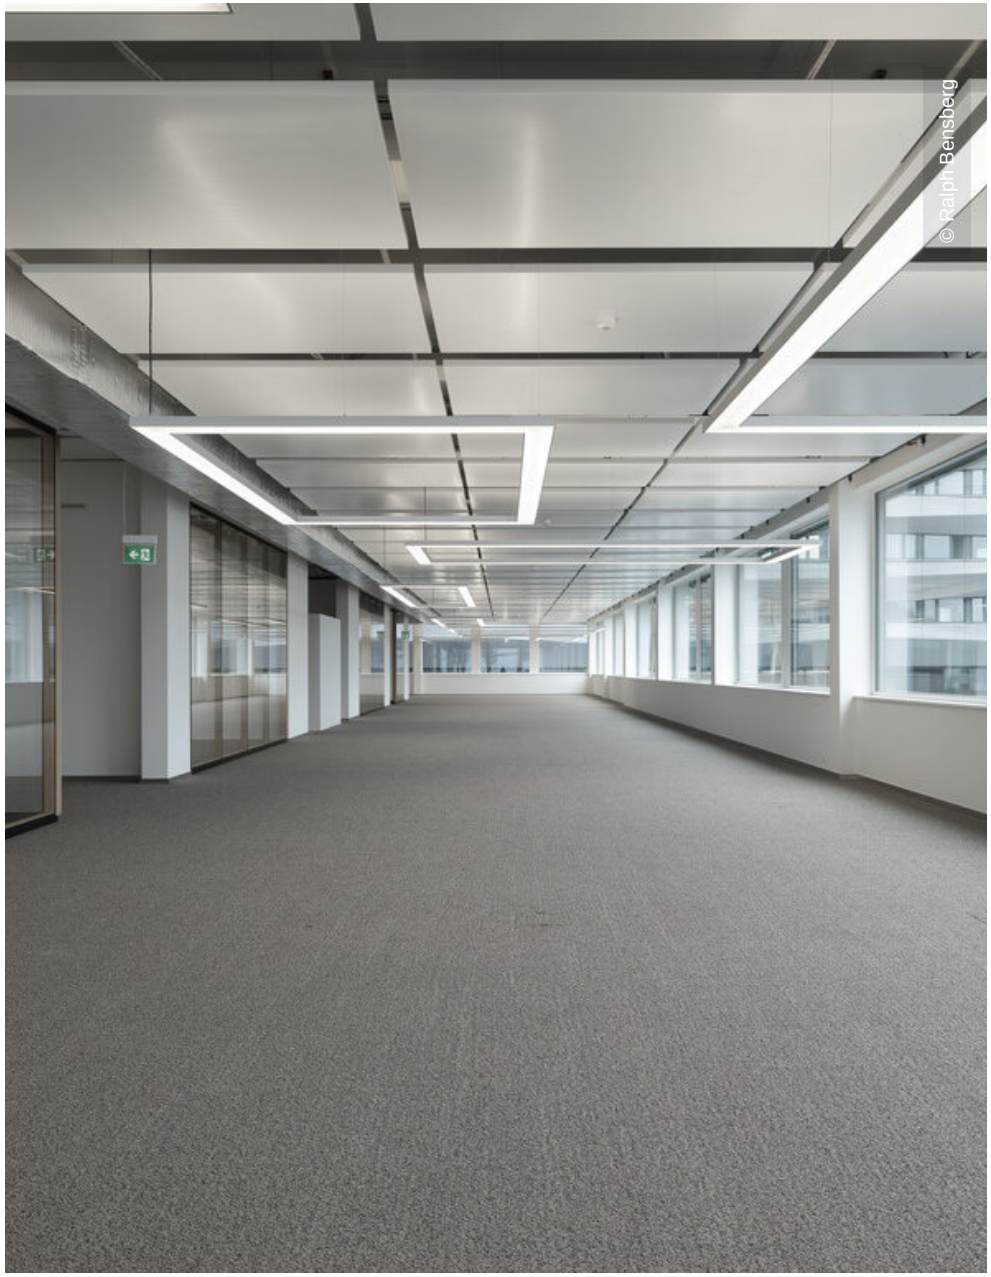

- **Doors**
