Project Description

With brands such as NIVEA and 8x4, Beiersdorf is one of the most renowned companies in the skin care industry: From now on, deodorants will be produced at the new plant in Leipzig-Seehausen. With the Leipzig site, Beiersdorf is relying on ultra-modern buildings that combine technical innovation and the highest environmental standards.

As general contractor, the Lindner Group was responsible for a wide range of fit-out work on this project. In addition to the office building, the focus was on the production areas: To transform the plant into a modern and functional centre, the Lindner team carried out floor coatings according to the Federal Water Act as well as dry lining and painting work and assembled high-quality interior glazing, including Planum. For the production and laboratory areas, Lindner installed system partitions, doors, free-standing cubicles and a walk-on ceiling in the Line 100S Type 2 variant – the completely enclosed walk-on level makes installations and the media routing particularly easy to maintain. Steel doors, fire gates and high-speed gates provide access to the various production areas. The production plant is complemented by effective extinguishing water barriers, Loading ramps and truck docking stations, ram protection and clean run mats. Another special highlight is the floor in the high-bay warehouse: Thanks to a Superflat magnesia screed, the floor is particularly even – ideal for the modern high-bay racks. Lindner also took care of the planting in the office areas of the building and the complete kitchen equipment, including refrigeration cells. With the successful completion of this project, Lindner has made a significant contribution to establishing the new Beiersdorf plant in Leipzig-Seehausen as a flagship site for modern and sustainable production architecture.

General

Building Type	Office Buildings, Factories and Production Facilities, Industrial and commercial construction
Company Division	Lindner SE Fit-Out Central.East Germany
Completion	2021 - 2023
Architect	io-consultants GmbH GmbH & Co.KG
Client	Beiersdorf Manufacturing, Waldheim

Completed Works

- **Partitions**

- Partition Systems Glass
 - Lindner Life Stereo 125
 - Lindner Life Pure 620

- **Ceilings**

- Canopy Ceilings
 - LMD-DS 320
- Baffle Ceilings
 - LMD-L 601

- **Room-in-Room**

- Lindner Cubes
 - Lindner Cube solo

- **Clean Room**

- Steel grid systems
 - Line 100S Type 2
- Clean Room Partitions
- Clean Room Doors

- **Doors**

- Wooden doors

- **General contractor**

- Dry construction works
- Carpentry
- Floor covering works
- Painting works
- Metalworks
- Screed works
- Floor coating works
- Tiling works
