

Data Centre Interxion ZUR3

Rümlang, Switzerland

© GRUNER&FRIENDS

Project Description

The ZUR3 Data Centre in Glattbrugg, near Zurich, spans over 30,000 m², making it the largest data storage facility in Switzerland. Designed by GRUNER&FRIENDS, on 11,500 m² the building houses offices, meeting rooms, storage areas, and client rooms across four floors. The construction was planned and executed using an integrated BIM system, ensuring an efficient and expedited design and building process completed in just two and a half years. During the development of the façade, the architects were inspired by Christopher Nolan's science fiction film "Interstellar".

The Lindner SE, with its Swiss branch in Opfikon, played a crucial role in the interior fit-out of the ZUR3 Data Centre. Raised floor systems such as the NORTEC raised floor and LIGNA wood-based panels, as well as the FLOOR and more[®] hollow floor system, meet specific requirements for sound insulation, fire protection and load capacity, offering high walking comfort and low emission levels in terms of VOC, as well as their highly resilient traverse constructions. In terms of sustainability, the NORTEC and FLOOR and more[®] floor systems stand out for their recyclability, certified as Cradle to Cradle Certified[®] Silver, and the possibility of CO₂-neutral production.

In addition to the flooring systems, various ceiling, wall, and door systems were installed in the ZUR3 Data Center. These include felt acoustic ceilings in the entrance area, magnesite soundproof panels, as well as over 500 steel doors with safety, locking, and fitting technology.

Lindner also custom-made furniture, such as kitchen and reception furnishings. Tile and slab work, as well as painting and finishing, complete the comprehensive package and contribute to a cohesive, aesthetic design throughout the centre.

General

Building Type	Utility Rooms, Data Centres / IT facilities, Facilities for Meetings, Conventions and Conferences, Industrial and commercial construction
Company Division	Lindner SE Arnstorf Branch Opfikon
Completion	2019 - 2023
Architect	GRUNER&FRIENDS International AG

Completed Works

- **Floors**

- Calcium Sulphate Panels
 - NORTEC
 - FLOOR and more®
- Chipboard Panels
 - LIGNA
- Floor Coverings

- **Partitions**

- Partition Systems Full Panel
 - Lindner Logic 100 Timber
- Partition Systems Glass
 - Lindner Life Clear

- **Doors**

- Aluminium Tubular Frame Doors

- **General Contracting**

- Furniture
- Tiling works
- Painting works
- Plasterboard ceiling systems
- Plasterboard partition systems
- Plastering works
