

OpernTurm

Frankfurt, Germany

Project Description

In a prime location, right next to the old opera, the new OpernTurm rises as a striking cornerstone of the Central Business District in Frankfurt. With a total of 42 storeys – that not only house office space but also arcades with restaurants and retail spaces – the skyscraper offers a significant expansion of the urban space. With the extension of the Rothschildpark by 5.500 m² and energy-saving measures in the façade and interior fittings, the OpernTurm is one of the first new skyscrapers that has received LEED Gold certification.

On floors 10 to 12, Lindner played a key role in the design of the wall systems: The solutions included the installation of solid wall elements made of wood and metal, the integration of elegant glass partitions, as well as the installation of high-quality door elements made from aluminium. This tailor-made combination of functionality and aesthetic design not only provides an elegant separation of the office spaces but also supports the acoustic requirements of the office environment. Lindner's expertise in high-quality interior fittings thus significantly contributed to the creation of an effective and comfortable working atmosphere on these levels.

General

Building Type	Office buildings, Building certification
Company Division	Lindner SE Partitions
Completion	2023
Architect	Meffert Architektur GmbH

Tenant	ARDIAN Germany GmbH
Client	Opernplatz Property Holding GmbH und Co. KG c/o Tishman Speyer Properties Deutschland GmbH
Building certification	LEED

Completed Works

- **Partitions**

Partition Systems Glass

Lindner Life Stereo 125

Partition Systems Full Panel

Lindner Logic 100 Metal

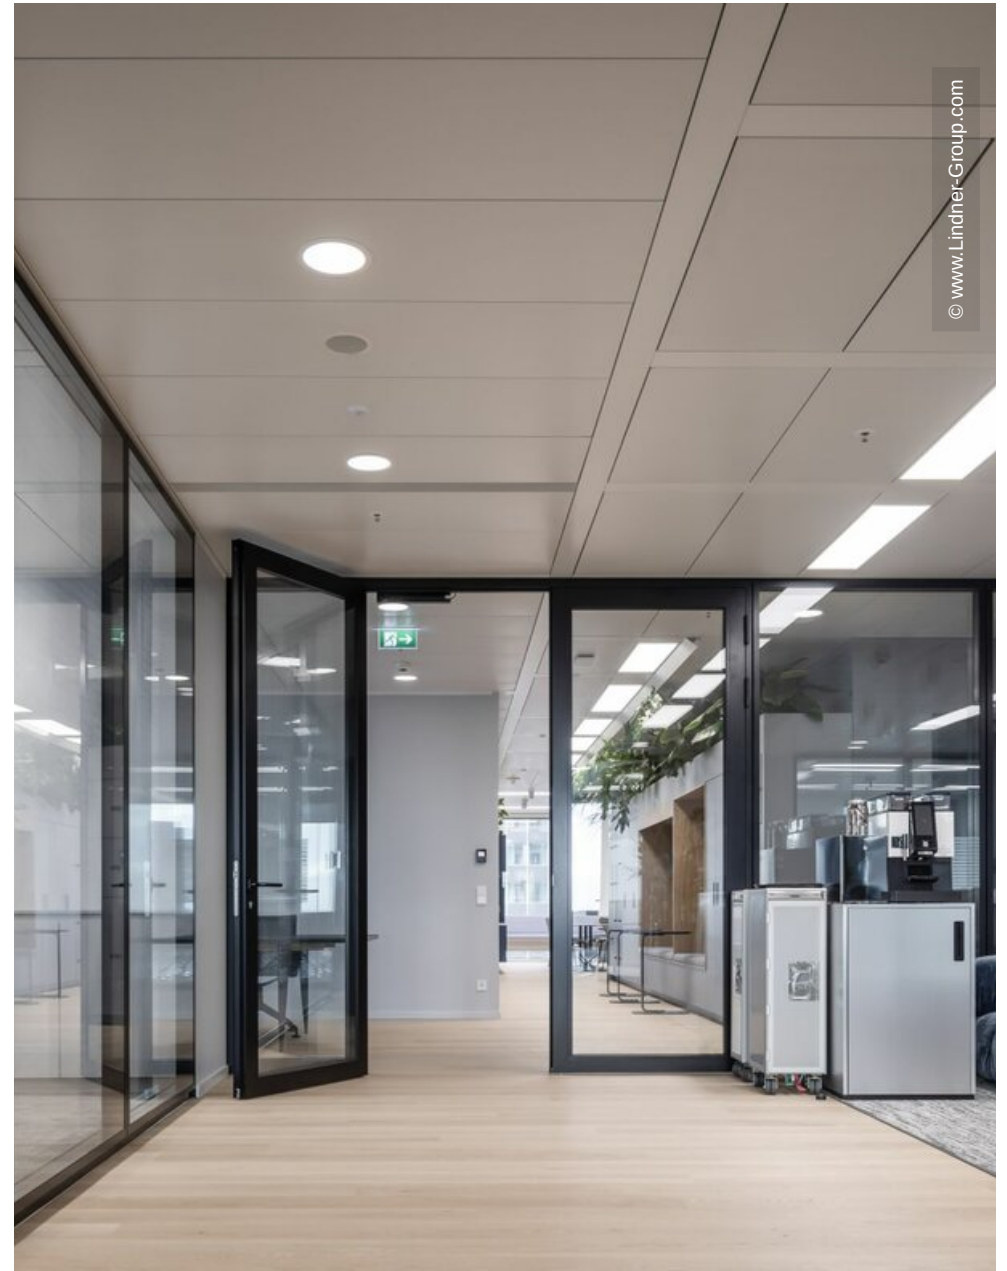

Lindner Logic 100 Timber

Aluminium Tubular Frame Doors
