Project Description

CFO Pharma is a leading Albanian pharmaceutical company specialising in the registration, import, and distribution of pharmaceuticals in Albania. Following the opening of its new headquarters in Tirana in 2022, an additional conference room was later developed, designed specifically for high-level meetings. This room provides a modern, flexible environment enhanced by advanced audiovisual technology. The design prioritises both comfort and acoustics to create a productive, private setting for strategic discussions.

Following the successful development of the new headquarters, the team from Lindner Albania played a key role in the interior outfitting of the new CFO conference room. They supplied and installed wall cladding with real wood veneer as well as Lindner Free Metal wall cladding with a textile surface to optimise acoustics. Additionally, Lindner COMPwood acoustic partitions and the Lindner COMPwood acoustic ceiling system, also featuring perforated real wood veneer, were implemented.

General

Building Type	Office Buildings, Assembly Rooms, Facilities for Meetings, Conventions and Conferences, Industrial and commercial construction
Company Division	Lindner Albania
Completition	2023
Architect	MA Studio & Partners, Tirana

Completed Works
