# Project Description

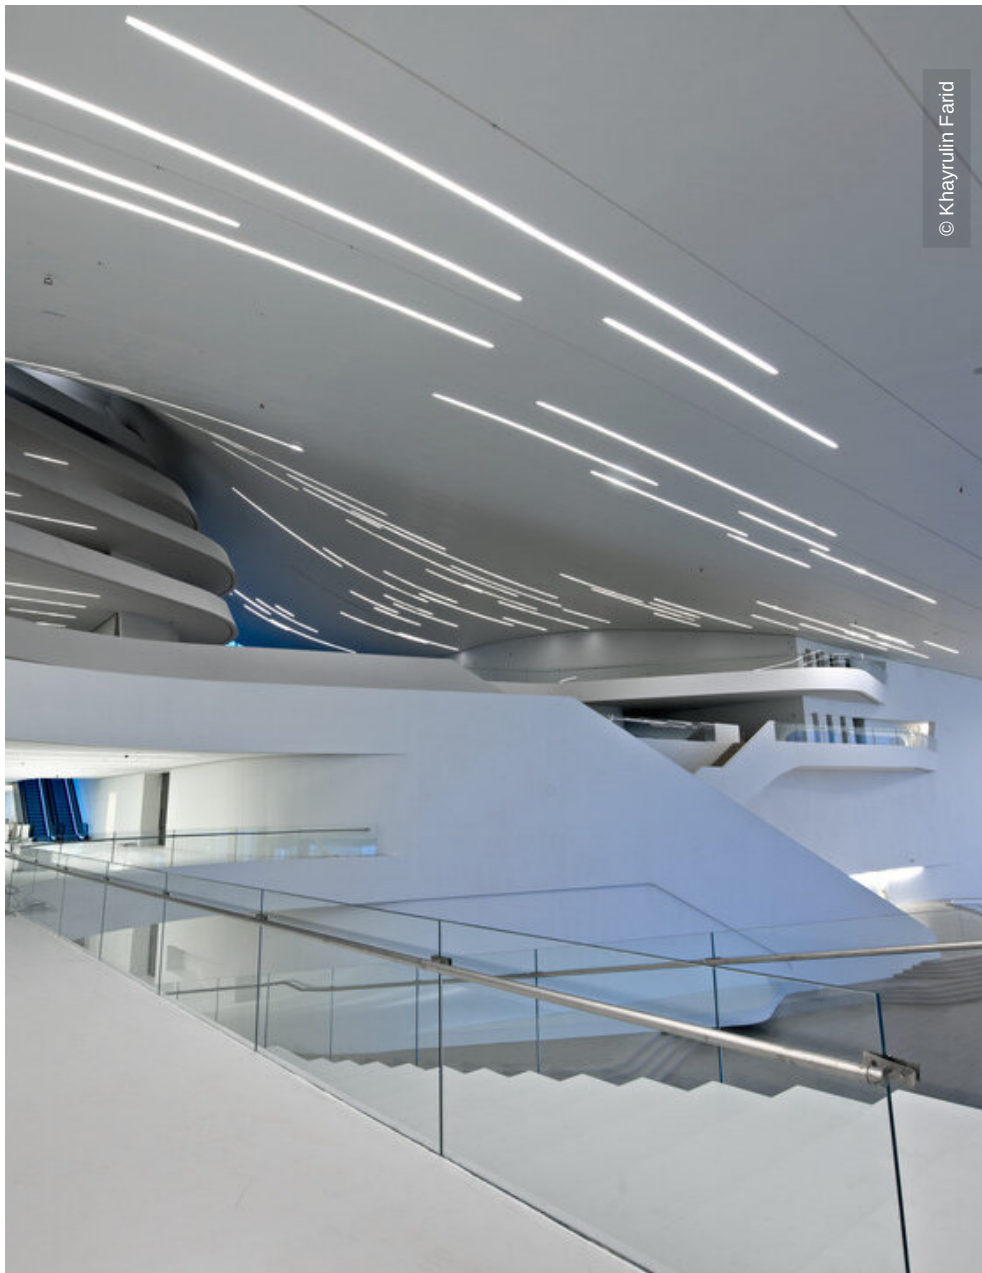

The Heydar Aliyev Cultural Center is a cultural complex named after the former president. It includes a conference hall, a museum and a library. The center is a folder shaped building with 74 m at the highest point of its roof, which posed a serious challenge for the realisation of the project. Being strong in research and development, Lindner offered the best solution of an adjustable substructure for the foyer of this non-standard building and the complex inner skin of this area.

## General

<b>Building Type</b>	Function rooms
<b>Company Division</b>	Lindner Gipsfaser- und Trockenbau
<b>Completion</b>	2010 - 2012
<b>Client</b>	Dia Holding
<b>Architect</b>	Zaha Hadid Architects

## Completed Works

- NORIT Drywall Boards
