

ADAC

Munich, Allemagne

 **Lindner**

Description du projet

The new ADAC headquarters accommodates 2,400 employees who were previously spread across six different locations in Munich. The 18-storied office tower rises above the 5-storied base. The new building includes conference facilities and a training center, a staff restaurant, a print shop and office space. Lindner equipped the entire building with floor systems, predominantly the NORTEC raised floor system on an area of 44.000m².
