

# TENANT FIT-OUT – APPLIKE

HAMBURG, GERMANY

## Description:

The offices of the AppLike start-up are in a special location along the Alster in Hamburg. On three floors covering over 3,000 m<sup>2</sup>, the industrial-style areas are designed to match the working methods of the teams. The functional and open space design allows for quiet working as well as cooperative collaboration. Lindner realised the entire interior fit-out of all three floors.

Besides dry lining partitions, Lindner glass partitions, partly covered with foil, were used to separate the rooms. Tubular frame doors and wooden doors provide access to the meeting rooms and other areas. Baffle ceilings and acoustic-baffles were used as special ceiling elements. Furthermore, Lindner also realised carpentry services such as high-quality, plainly designed tea kitchens, the grandstand which serves as a seat at events or meetings, as well as the washstand and wall cupboards in the toilets. The contract also included the complete ventilation and sanitary engineering, as well as the entire electrical engineering and fire alarm system. Painting, floor covering and tiling works completed the interior fit-out. Additionally, acoustic simulations were made for the various areas during the planning phase.

## General:

Concept/Product:	Fit-out for tenants
Building Type:	
Client:	Gruner + Jahr GmbH
Architecture:	BAID Architektur GmbH
Company Division:	Lindner SE   Fit-Out North.Northwest Germany
Completion:	2020
