General:

Concept/Product:	,,
Building Type:	
Client:	Bavarian federal state parliament
Architecture:	frank & friker Architekten
Company Division:	Lindner SE Ceilings, Lindner SE Partitions
Completion:	2014

Description:

Since 1949, the Maximilianeum placed in the Munich district of Haidhausen is the domicile of the Bavarian

Parliament. Numerous redevelopment measures took place in order to adapt the historic building to requirements of a modern parliament building.

The library of the Bavarian Parliament is situated in the basement of the old building and serves as information for members of the parliament, parliamentary groups and parliamentary administration.

For a comprehensive renovation of the library, the architects and the client decided on Plafotherm® heated/chilled ceilings in special execution.

The challenge of the renovation was to find a suitable solution for the old building according to the requirement "antique look in modern guise"

Completed Works:

Customised heated and chilled systems

Plafotherm® S - Customised ceilings

Plasterboard ceiling systems

Plasterboard ceilings

Plasterboard partition systems

Metal stud plasterboard partition systems

Glass partitions

Lindner Life glass partitions
